Gloria, it looks like Superior has implemented their work plan for the oil spill cleanup. As far as I know, EPA was not provided the opportunity to comment on the plan.

Sue, Chris, Philip:

Superior began implementation of the attached investigation workplan (revised from the one that you saw previously) early last week after they completed removal of crude oil, water and oily grass. The report from the field is that they are roughly halfway through their sampling plan, and currently delayed while they remove water that accumulated during recent rain. Sampling likely will continue into next week. Let us know if you have questions. Thanks,

Peter Pope

Sue and Chris,

I apologize for not getting to you sooner. Please accept this e mail as Railroad Commission staff's communication that we will take the lead in overseeing the remediation of the February 2010 Superior Oil spill event at the NORCO property in Ingleside.
